

XM Radio is awesome where I live. I live in the mountains of Colorado and get almost no radio reception from one local station. XM keeps me informed with world events and other news. I make frequent trips to Denver and this gives me a heads up long before I get there. We pay for XM every month and local stations are free. If we are willing to pay for something that we can get for Free, and the compition is trying to shut the service down, maybe they should improve their stations. I don't see where one radio ao tv station has the right to complain about another unless slander or liable is involved. None are Present! If you let the radio stations shut down XM, YOU ARE LETTING THE 1ST AMENDMENT GET WASHED UNDER THE BRIDGE!!!! XM ONLY OFFERS QUALITY MUSIC, NEWS, AND ENTERTAINMENT. DON'T ALLOW THIS TO HAPPEN.
